

## TECHNICAL DATA SHEET : GORKHA LINER\_500

Gorkha Liner\_500 is a Reinforced woven coated geomembrane, High Strength HDPE core and engineered coating blend make is ideal for use in water retention and containment applications. The durable, stress crack resistance, light weight construction of products provides outstanding performance in many different climates and environment conditions.

Gorkha Liner\_500's proprietary construction using high strength core and coating blend make it deal for application such as farm pond liners, aqua culture, wastewater lagoons, landfill covers, golf course ponds, irrigation storage, potable water reservoirs as well as Hay stack covers, grain covers, Heavy duty covers and tarps.

| Property                           | Test Method                   | Typical Value            |
|------------------------------------|-------------------------------|--------------------------|
| Product Weight                     | IS 7016 - Part 1              | 430 GSM                  |
| Thickness                          | IS 7016 - Part 1              | 500 Micron               |
| Breaking Strength - MD             | IS 13162 - Part 5             | 7600 N                   |
| Breaking Strength - CD             | IS 13162 - Part 5             | 7000 N                   |
| Elongation @ Break - MD            | IS 13162                      | 20%                      |
| Elongation @ Break - CD            | IS 13162                      | 20%                      |
| Tear Strength - MD                 | Method A1 of IS 7016 - Part 3 | 350 N                    |
| Tear Strength - CD                 | Method A1 of IS 7016 - Part 3 | 350 N                    |
| Hydrostaic Resistance              | Annexure E of IS 15351        | No Leakage @ 15 kg / SQM |
| UV Weathering - % after 2000 Hours | Annexure B of IS 15351        | > 90%                    |
| Bursting Strength                  | IS 7016 - Part 6              | 110 N / Sq.cm            |
| Puncture Resistance                | Annexure D of IS 15351        | 500 N                    |
| Limited warranty exposed           | -                             | 5 Years                  |
| Limited warranty buried            | -                             | 10 Years                 |

- 1) Values are typical and not limiting specifications
- 2) MD & CD refers to machine and cross direction.
- 3) Warranty buried and exposed data is general recommendation

Gorkha Liner is a product of Oscar Protective Fabrics, India

IS 15351:2015

CM/L 7200312695

First time in india geomembrane made with NitroWin™ and ZigZag™ technology
